Repeat Colors?	Yes

Color Chart

When using stops on my program the colors that appear on your machine will be different (more along dst format colors) from the pictures entirely and may tell you to change colors at a stop. Do not change colors till the instructions tell you on this sheet as it's not necessary. Please use colors on this sheet or the ones you choose to replace the ones used and follow the color change instructions below to get the proper results.

1	1892	Light Aqua Blue
<ol style="list-style-type: none"> 1. Sew out the first four frames in the lt. aqua and the machine will stop. There will be an outline of the size of the fabric needed for the sleeves and open sides on the bottom of the kimono. 2. Remove hoop. At this point cut two pieces of matching fabric at least ¼ inch (I prefer to cut mine ½ inch bigger all around so I can get a nice grip on the fabric without stretching or pulling the fabric too much) all around bigger than the outline for the bottom sides of kimono using your favorite method or you can use Embroidery Adhesive spray and spray the back of the two fabric pieces and center on the outlines at the bottom sides of the kimono and smooth flat. (I also use Steam a Seam 2 in a ½ inch roll. Wonderful stuff!) 3. Replace hoop and sew out next two frames which will put the outline on top of the two fabric pieces. 4. Remove hoop and trim fabric as close as possible to the outlines without cutting lines or pulling fabric loose. Leave a tiny bit of fabric past the outline so fabric will not fray loose during finishing process(2-3mm) 5. Now repeat the process (steps 2-4) of placing fabric over the sleeves outlines. 6. Replace hoop and sew out the next two frames which will outline the fabric of the sleeves on top of the fabric. 7. Remove hoop and trim sleeve fabrics as close to lines as possible again. 8. Replace hoop and finish sewing out the remaining colors. 		
2	1895	Dark Aqua Blue
3		Any Metallic Silver
4	1892	Light Aqua Blue
