Color Chart

When using stops on my program the colors that appear on your machine will be different (more along dst format colors) from the pictures entirely and may tell you to change colors at a stop. Do not change colors till the instructions tell you on this sheet as it's not necessary. Please use colors on this sheet or the ones you choose to replace the ones used and follow the color change instructions below to get the proper results.

1	1802	White
<p>1. Sew out the first three frames in the white and the machine will stop. There will be an outline of the size of the fabric needed for the sleeves.</p> <p>2. Remove hoop. At this point cut two pieces of matching fabric at least ¼ inch (I prefer to cut mine ½ inch bigger all around so I can get a nice grip on the fabric without stretching or pulling the fabric too much) all around bigger than the outline sleeves of the kimono using your favorite method or you can use Embroidery Adhesive spray and spray the back of the two fabric pieces and center on the outlines at the bottom sides of the kimono and smooth flat. (I also us Steam a Seam 2 in a ½ inch roll. Wonderful stuff!)</p> <p>3. Replace hoop and sew out next two frames which will put the outline on top of the two fabric pieces.</p> <p>4. Remove hoop and trim fabric as close as possible to the outlines without cutting lines or pulling fabric loose. Leave a tiny bit of fabric past the outline so fabric will not fray loose during finishing process(2-3mm)</p> <p>Replace hoop and finish sewing out the remaining colors. (Be sure to change colors at this time)</p>
